

# WATER BIKE **WR4**

the **Sport** aquabike

**WR4**

## A TRIM FIGURE !

The WR4, an efficient water bike with real pedaling fluidity, is recommended by many physiotherapists.

The WR4 is equipped with an adjustable hydraulic resistance system for customising a wide choice of exercises. This system creates a whirlpool effect, providing a draining massage that stimulates the blood circulation in the lower limbs.

This bike propose to smoothly tone the buttocks, make your legs seem lighter and reshape the thighs. The WR4 is designed for intensive daily use.

## OPTIONAL ACCESSORIES

COMFORT SADDLE

TRAINING BAR

RESISTANCE BANDS  
3 LEVELS AVAILABLE

## HYDRAULIC RESISTANCE SYSTEM AQUAPALM2

The WR4's Aquapalm 2 system contains 4 rotating blades to improve the performances. The scoop shape provides additional support in the water and increases the resistance; the user can adjust this hydraulic resistance system by rotating each of the blades, while in the sitting position. This technical innovation has appealed to many sports clubs, physiotherapists and thalassotherapy centers.

Barefoot comfort

45° sport handlebar

Gradual marking
